

**2016 DINMORE HERD PRODUCTION SALE**

**PLEASE BRING THIS CATALOGUE TO THE SALE**

*CATALOGUE FOR THE*

**Second Major Production Sale of  
The 'DINMORE' Herd of Pedigree Limousin Cattle**

on

**Saturday 2<sup>nd</sup> July at 12 Noon**

ON BEHALF OF MR PAUL DAWES

at

**Kipperknowle Farm, Dinmore Manor Estate,  
Dinmore, Hereford, HR4 8EE**

**92 Head of Pedigree Limousin Cattle,  
7 Head of Pedigree British Blue Cattle and  
25 Continental Commercial Cattle**

*Comprising:*

- 26 Pedigree Limousin Cows and Cows with Calves at Foot
  - 16 Pedigree Limousin In-Calf and Served Heifers
  - 26 Pedigree Limousin Maiden Heifers
  - 5 Pedigree Limousin Bulls
- 2 Pedigree British Blue Cows with Calves at Foot
  - 3 Pedigree British Blue Maiden Heifers
  - 1 Unregistered Pure Bred Limousin Bull
  - 1 Limousin x British Blue Bull
- 5 Commercial Cows with Calves at Foot
  - 10 Commercial In-Calf Heifers
  - 5 Commercial Maiden Heifers
  - 22 of the Herd's frozen Embryos

# 2016 DINMORE HERD PRODUCTION SALE

## GENERAL INFORMATION & SALE NOTES

**LOCATION:** The sale will be held at Kipperknowle Farm, Dinmore Manor Estate, Dinmore, Hereford, HR4 8EE: Tel: 01432 830847. Richard Bartle 07983 569329  
Email: margaret@dinmore.net or for more information visit [www.dinmore.net](http://www.dinmore.net)

Further information can be obtained from: Newark Livestock Market, Tel: 01636 676741 or Paul Gentry 07801 032846, paul@newarklivestocksales.com. Website: [www.newarklivestocksales.com](http://www.newarklivestocksales.com)

**DIRECTIONS:** The sale will be well signposted with directions from the A49 between Hereford and Leominster.

**SEMEN ROYALTY SCHEME BULL REGISTER:** Purchasers are asked to note that where a female is catalogued as being served/inseminated by a 'Semen Royalty' Sire the appropriate royalty will be payable by the purchaser prior to registration of the calf.

**METHOD OF SALE:** All Pedigree cattle will be sold under National Beef Association Rules and sold in guineas (105 pence) and in strict catalogue order, unless any alterations are announced by the auctioneers. Commercial cattle will be sold in £s per head.

**COMMISSIONS:** The Auctioneers will dutifully execute commission to purchase for buyers unable to attend the sale personally, upon the receipt of written instructions.

**REGISTRATIONS:** All Pedigree stock in the sale are registered with the British Limousin Cattle Society, Concorde House, 24 Warwick New Road, Leamington Spa, Warwickshire, CV32 5JG. (Tel 02476 696500) and The British Blue Cattle Society, Holme House, The Dale, Ainstable, Carlisle, Cumbria, CA4 9RH. (Tel: 01768 870522).

**PEDIGREE TRANSFERS AND FEES:** The vendor will pass all pedigree certificates to the relevant society and these will be transferred free of charge.

**HERD HEALTH:** Member of the BioBest Hi-Health Herdcare, CHeCS-licenced health scheme, since 2010. Johnes Risk Level 1, BVD Accredited since 2011, BVD & Lepto vaccinated since 2007. This is a one-year TB parish with the last clear test date 8<sup>th</sup> June 2016.

### NATIONAL BEEF ASSOCIATION WARRANTY

#### IMPORTANT NOTICE TO PURCHASERS

1. This Sale is held subject to recommended Conditions of Sale of the National Beef Association.
2. This Sale is held subject to the Special Terms and Conditions of Sale recommended for Sales of Pedigree Beef Cattle by the National Beef Association. The preparation of these Terms and Conditions has proved a lengthy and costly process and, in order to defray the legal and other costs involved, and to provide a continuing source of revenue to assist the Association in its vital work for Pedigree Cattle Breeders, the Council of the Association has decided that a special levy, amounting to £4 per male and £2 per female head/lot sold (plus VAT) shall be charged to each Purchaser.

This levy will be imposed at this Sale and added to the Purchasers' accounts.

# 2016 DINMORE HERD PRODUCTION SALE

## LIMOUSIN

## LIMOUSIN PERFORMANCE RECORDING

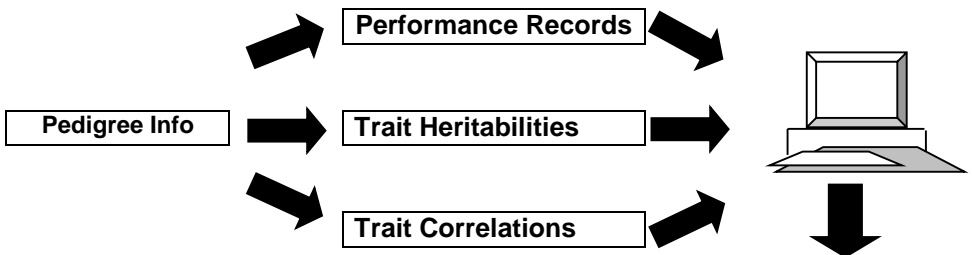

### HOW TO USE LIMOUSIN BREEDING VALUES

ESTIMATED BREEDING VALUES (EBVs) & GENOMIC BREEDING VALUES (GEBVs)

#### 1. What Are EBVs?

Many factors influence the appearance and performance of a bull. For example, age, nutrition, management, age of dam, health, season, quality of farm and the genes it has inherited from its parents. The only factor that can be passed on to its calves, however, is its inherited genetic potential. Estimated Breeding Values are measures of that potential and are calculated from the following:

- Measurements from the animal itself
- Measurements from the animal's herd mates (known as 'contemporaries')
- Measurements from the animal's relatives and their contemporaries
- The degree to which one trait influences another (known as a 'correlation')
- The degree to which each trait is passed on to the next generation (known as 'heritability')

Each EBV calculation involves solving a set of simultaneous equations where the 'unknowns' are the genetic value of the animal and the environmental effect on its performance. When carried out many times, using all the information on the animal above, the equations are able to quantify the unknown genetic component.

The end result is the EBV and over time, as more pedigree and performance data is added, the solution to the equations becomes more accurate as the *true* breeding value of the animal is approached.

## 2. What are GEBVs?

**In March 2016, Genomic Breeding Values (GEBVs) became available for all Limousin cattle for a range of new Carcass Traits.** They are the first of their kind within the UK's beef sector and are the result of a £1.5 million four-year research project between the British Limousin Cattle Society, ABP Food Group and SRUC.

**GEBVs take conventional EBVs a step further by using the information from animals' DNA as well as the usual measurements of performance.** To produce the breeding value the DNA is compared to a DNA 'key' for the breed:

**This key is created from** a core population of Limousin animals that have been measured on-farm and in the abattoir as well as having DNA collected

**The key is like a library** that cross refers information from the DNA strand with different levels of abattoir performance.

**GBVs are produced** by comparing the DNA of an animal with the key. They are calculated from the correspondence of that animal's DNA with those in the library

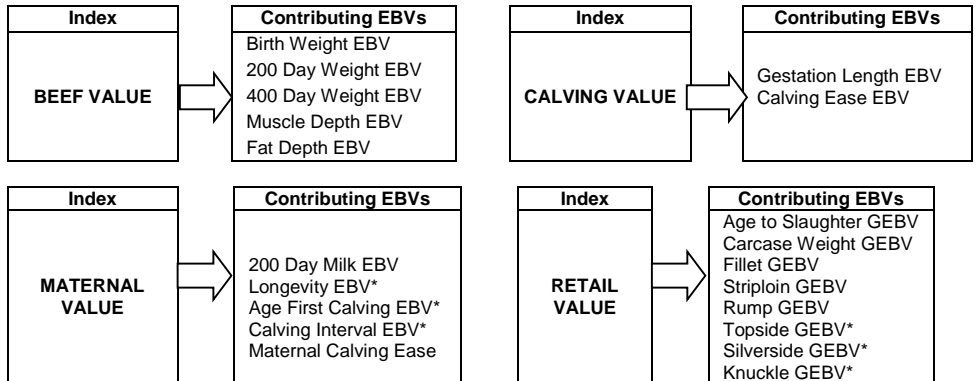

**GEBVs are used in exactly the same way as EBVs...**

Albeit they are produced in slightly different ways GEBVs are in essence breeding values that indicate genetic merit as EBVs do and the way the two are used should not differ (see paragraph 5).

### 3. What Are Breeding Indexes?

It is often desirable to select animals on the basis of more than one EBV/GEBV. Breeding Indexes focus on specific breeding goals and combine the appropriate EBVs/GEBVs in to a single figure based on their relative economic value. This is widely regarded as the most efficient method of selecting on a number of traits at once.

Four Breeding Indexes are published at sales, as follows:

\* EBVs not published at breed sales

**When using an Index it is important that your breeding objective is broadly similar to that of the Index in question, otherwise you may unwittingly change aspects of your herd that you did not necessarily want to.**

## 2016 DINMORE HERD PRODUCTION SALE

### 4. What EBV Information Is Available?

In sale catalogues EBV and GEBVs are produced for nineteen traits that focus on an animal's economic performance

EBV	EBV indicates...	Look for...
<b>Birth Weight (kg)</b>	Genetic potential for calf weight at birth	<b>High negative EBVs</b> if you want low calf birth weights
<b>Calving Ease (%)</b>	Ease with which a bull's progeny will be born	<b>High positive EBVs</b> if you want less assisted calvings
<b>Maternal Calving Ease (%)</b>	Ease with which a bull's daughters will calve	<b>High positive EBVs</b> if you want less assisted calvings
<b>Gestation Length (days)</b>	Genetic potential for gestation length	<b>High negative EBVs</b> if you want short gestation lengths
<b>200 Day Milk (kg)</b>	The maternal component of 200 day growth (i.e. the contribution that the milking and maternal abilities of a bull's daughters make towards their calves' growth at 200 days of age)	<b>High positive EBVs</b> if you want daughters to wean heavier calves
<b>200 Day Weight (kg)</b>	Genetic potential for growth from birth to 200 days of age	<b>High positive EBVs</b> if you want high growth rates to weaning
<b>400 Day Weight (kg)</b>	Genetic potential for growth from birth to 400 days of age	<b>High positive EBVs</b> if you want high growth rates to finishing
<b>Muscle Depth (mm)</b>	Genetic potential for muscularity and potential to increase lean meat yield	<b>High positive EBVs</b> if you want good calf conformation
<b>Fat Depth (mm)</b>	Genetic potential for leaner carcasses	<b>Negative EBVs</b> if you want to produce leaner carcasses or take calves to heavier weights without penalty for fatness
<b>Age at 1<sup>st</sup> Calving (%)</b>	Genetic potential for early sexual maturity	<b>High negative EBVs</b> for a greater proportion of heifers that hold to 1 <sup>st</sup> service
<b>Longevity (years)</b>	Genetic potential for long life in the breeding herd	<b>High positive values</b> for animals likely to remain in the herd for longer
<b>Calving Interval (days)</b>	Genetic potential for the time taken to get back in calf	<b>High negative values</b> to breed cows that get back in calf quickly
<b>Docility (%)</b>	Genetic potential for being calm when handled	<b>High positive values</b> for animals that are likely to be more calm when handled
<b>Scrotal Circumference (cm)</b>	Genetic potential for scrotal size. Linked to male serving capacity and puberty of daughters.	<b>High positive values</b> for animals with higher likely serving capacity and earlier maturing daughters.

## 2016 DINMORE HERD PRODUCTION SALE

GEBV	GEBV indicates genetic potential for...	Look for...
<b>Age to Slaughter GEBV (days)</b>	Age at slaughter assuming a standard carcass weight of 350kgs	High negative values (less days) for animals that will reach 350 kg deadweight quicker
<b>Carcass Weight GEBV (kg)</b>	Carcass weight at a standard slaughter age of 600 days	High positive values for animals that will reach heavier carcass weights at 600 days of age
<b>Fillet GEBV (kg)</b>	Weight of fillet at a standard slaughter age of 600 days and carcass weight of 350kg	High positive values for higher fillet weights in the carcass
<b>Striploin GEBV (kg)</b>	Weight of striploin at a standard slaughter age of 600 days and carcass weight of 350kg	High positive values for higher striploin weights in the carcass
<b>Rump GEBV (kg)</b>	Weight of rump at a standard slaughter age of 600 days and carcass weight of 350kg	High rump values for higher fillet weights in the carcass

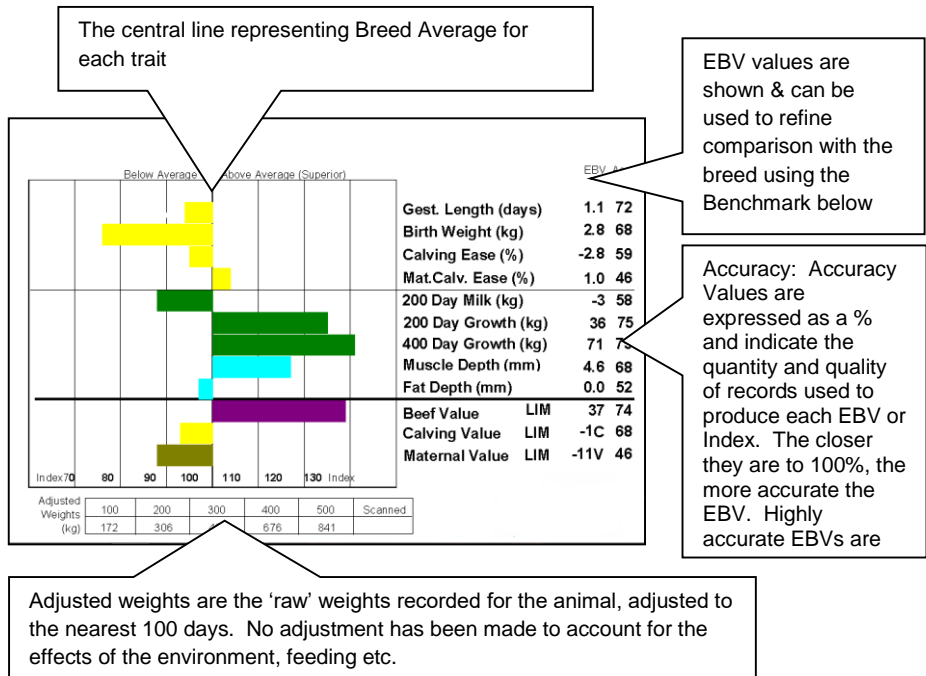

**Breeding values for further traits for each animal are available on [www.basco.org](http://www.basco.org).** Enter animal name or ear number in the Quick Search box. You can also search by breeder and by breeding values ('Breeder Search' and 'EBV Search'). The additional traits available are:

- Age at 1<sup>st</sup> Calving EBV
- Calving Interval EBV
- Longevity EBV
- Topside EBV & GEBV
- Silverside EBV & GEBV
- Knuckle EBV & GEBV

# 2016 DINMORE HERD PRODUCTION SALE

## 5. How to Use the Information in This Catalogue

EBVs and GEBVs are expressed in the same unit as the recorded trait (eg kgs for 400 Day Weight, mm for Muscle Depth etc) are relative to the Breed Average. In sale catalogues, Breed Average for each trait is represented by the vertical line that is central on the bar chart. Bars that lie to the right of that line indicate EBVs that are above average. The further to the right they lie, the higher above Breed Average they are. Equally, bars that lie to the left of the line indicate EBVs that are below Breed Average. The further to the left they are, the further below Breed Average they are. An example is as follows:

## 2016 DINMORE HERD PRODUCTION SALE

The numeric EBV and GEBV values on the charts can be used to further refine comparison with the breed using the Breed Benchmark below. This is updated annually.

### 2016 Limousin Breed Benchmark

Trait	Bottom			Breed	Top

### 5. Things to Consider...

- To establish just how much influence a bull will pass on to his progeny it is important to remember to halve the value of the EBV/GEBV, since the other half of a calf's genes comes from the cow.

*For example, a bull with a 400-Day Growth EBV of +62 is estimated to have the genetic potential to be 62kg heavier at 400 days of age compared to a bull with an EBV of 0. His calves would be expected to be 31kg heavier at that age when compared to calves by a bull with an EBV of 0, since they only inherit half of their growth genes from their sire (the other half coming from their dam).*

- Select animals using EBVs/GEBVs that are relevant to your farm, cow type and market
- Bear in mind that EBVs/GEBVs predict an animal's economic performance. They are no judge of factors such as soundness, locomotion, breed type etc and you must be satisfied with your potential purchase in these respects too.
- Consider the traits that will make you most money, but
- Don't forget to check traits you may be compromising in pursuit of your goals, such as Calving Ease etc

## 2016 DINMORE HERD PRODUCTION SALE

- EBVs/GEBVs change as time goes on. New calves and new performance records tell us more about animals' breeding potential. Limousin EBVs/GEBVs are updated three times per annum and all values will change as more information is added and the accuracy of the predictions increases.

### 6. EBV & Pedigree Info Just a Click Away

EBV, GEBV and pedigree information on all Limousin cattle are just a few internet clicks away...

- Step 1:** Click the 'Basco Online Herd Book' button on the Limousin Society homepage ([www.limousin.co.uk](http://www.limousin.co.uk))
- Step 2:** In the 'All Breeds Quick Search' box type the name or ear number of the animal you are interested in or click on the 'Breeder Search' button to look at all animals belonging to or bred by a particular breeder.

The site will then tell you the animal's owner/breeder details, its breeding values, its pedigree and list its progeny with full links to all of their information.

### 7. Further Information

For further information, please contact Alison Glasgow, British Limousin Cattle Society on telephone 01721 730664, e-mail [alison@limousin.co.uk](mailto:alison@limousin.co.uk) or visit the BLCS web site [www.limousin.co.uk](http://www.limousin.co.uk), 'Performance Programmes'.

# 2016 DINMORE HERD PRODUCTION SALE

## AUCTIONEER'S FOREWORD

It has been some four years since we conducted the first Production Sale for **The Dinmore Herd** on behalf of Paul Dawes, and it begs the question 'where did that time go?' Since then, through the flushing of the Herd's renowned female families, numbers have swelled and it is now time to offer some of the Herd's treasures.

The Dinmore Herd was established in 2001 with the purchase of the entire Peasleyhill Herd from Peter Brown. The original Herd was then boosted by some extraordinary additions including **WILODGE LITTLEDEM** purchased at auction for 12,000gns, and the privately purchased **WILODGE PRICELESS** who is the dam of the 50,000gns **CERBERUS**. Other purchases were made including **FLEETHILL SAL** for 17,000gns in 2004 with both **AGHADOWEY ALIX** and **CARMORN VONEY** being bought privately.

What inspired purchases these have turned out to be and this Sale includes their progeny:

**Fleethill Sal** Produced **Dinmore Bandit** who sold for 28,000gns to the Winfellpark Herd, and **DinmoreForgetMeNot** sold for 7,000gns at the First Dinmore Production Sale.

**Aghadowey Alix** Is the dam of **Dinmore Elle** who was awarded Supreme Champion Royal Welsh 2010. Elle was not only an outstanding show animal but has bred "beyond belief" producing **Dinmore Goldcrest** at 18,000gns – now marketed through Genus, with grandson **Dinmore Jeanpierre (Diamant x Giselle)** selling to 16,000gns at this year's May Sale to the Spittalton Herd. Alix also bred **Dinmore Hester** who sold at 6 months of age for 6,800gns.

**Carmorn Voney** Was Interbreed Champion at the Royal Ulster Show for two consecutive years. Voney's progeny include **Dinmore Elegance** who won numerous county show interbreeds and achieved Reserve Female Champion at the Royal Welsh Show twice. Voney is also the dam of **Dinmore Fabulous** who sold for the top price of 36,000gns at the last Dinmore Production Sale.

With these brood cows further progress has been made with the "Dinmore Brand" turning out some outstanding home-bred females. Again, progeny from these proven cow-families are offered in this Sale.

## 2016 DINMORE HERD PRODUCTION SALE

- Dinmore Athena*** Was the winner of no less than thirteen first prizes during 2006 as well as attaining Junior Female Champion at the Royal and Royal Welsh show. The following year she was Female Champion at the Royal Welsh Show. At the last Dinmore Sale a daughter, ***Dinmore Dena*** was sold with a calf at foot to the Swalesmoor Herd for 26,000gns. Another daughter, Dinmore Gena realised 7,000gns.
- Dinmore Caprice*** This is one of my own personal favourites (***Vantastic*** x ***Viceless***). Not only is she an outstanding cow, but a true breeder producing split-embryo twins ***Dinmore Foxy*** at 22,000gns and ***Dinmore Foxtrot*** at 14,000gns at the last Dinmore Sale. Caprice also bred ***Dinmore Immense*** who was Male Champion at the Royal Welsh in 2015 and a member off the interbreed winning Groups of Five and Fitzhugh Pair competitions; ***Dinmore JackTheLad*** who was Male Champion at the English Winter Fair 2015 and sold earlier this year to the Westpit Herd. Others include ***Dinmore Jacot*** who sold for 20,000gns at the May Sale to the Haltcliffe Herd.
- Dinmore Daffodil*** A simply wonderful breeder and multi interbreed winning cow producing ***Dinmore Hitman*** who is now working well in the Spittalton Herd. Daffodil's full sister, ***Dinmore Hellebore*** sold for 12,800gns to the Calogale Herd at just 3 weeks-of-age at the 2012 Dinmore Sale! Daffodil was Reserve Female Champion at the Royal Welsh and Reserve Senior Female Champion at the National Limousin Show 2011.
- Dinmore Glorious*** Being a full sister to ***Dinmore Elle***, she won The Burke Trophy with ***Diamant*** in 2014 – the most coveted piece of silverwear in beef breeding. Glorious has been Interbreed Champion at the Royal Three Counties Show for the past two years. She also achieved Reserve Breed Champion at the Royal Welsh Show 2016 and was a member of the Interbreed winning Group of Five.

The list of achievements attained by the females goes on and on, but we now turn to the males.

Notable sires purchased and used within the Herd include ***Wilodge Tonka*** at 30,000gns. Tonka needs no introduction with sons ***Cerberus*** realising 50,000gns and the legendary ***Vantastic*** achieving 42,000gns. Tonka bred very well at Dinmore with son ***Dinmore Bandit*** selling to 28,000gns.

## 2016 DINMORE HERD PRODUCTION SALE

**Proctors Duvalier (Vermount x Vabrielle)** was purchased for 20,000gns as a junior Herd sire in 2009 being a full brother to **Proctors Commander** who sold for 22,000gns in the previous year. He is the sire of **Dinmore Foxy** and **Dinmore Foxtrot**.

In 2012 **Diamant** was purchased from breeder Gaec Camus, Martinet, France – being out of **Version** and by **Pacha 08**. **Diamant** stood first at the French National Show at St Gaudens in 2012 and was Reserve Male Champion at Paris 2013. At his first show in the UK in 2014 he won the Burke Trophy at the Royal Three Counties with **Glorious**, later in the year he was Male Champion, Breed Champion and Interbreed Champion at the Royal Welsh Show. His first son offered for sale in February 2016 sold for 14,000gns after standing Reserve Intermediate Champion. In May this year another son, **Dinmore Jeanpierre**, sold for 16,000gns.

I respectively point out lots 50, “The Burke Trophy Daughter” **Dinmore Jolorie (Diamant x Glorious)** and Lot 58, the stunning **Elle** daughter **Dinmore Lanelle**, again sired by **Diamant**.

Without doubt **Diamant** was an inspired purchase. He is consistently breeding both males and females of great quality with great figures and being just what the Limousin Breed needs – A Total Outcross! **Diamant** has progeny and several pregnancies in this Sale.

In October 2015 a New World Record was set when **Trueman Jagger** sold for 140,000gns with the Dinmore Herd being a member of the purchasing syndicate. Not to be caught napping, Paul Dawes and Richard Bartle set off to Holland to purchase **Jagger's** dam **Trueman Grazia** - and she is stunning!! She was quickly onto a flushing programme to **Jagger's** sire and, hey-presto, we will be offering two full-sibling embryos to **Jagger**, so maybe you can breed a 140,000gns bull?

Mentioning Richard Bartle here is very appropriate as I know how much gratitude and appreciation Paul has for “Bart” for his outstanding achievements.

It goes without saying that since the Herd's foundation Dinmore has tried to buy the best and breed the best. The Herd is an outstanding credit to Paul and Bart and we at Newark are delighted once again to receive this important sale instruction.

We welcome you to the Sale and we know the cattle offered will give pleasure wherever they go.

Let The Sale Commence!!

**Paul Gentry FLAA**

Stop Press!!! These embryos are full-blood to the world record breaking **Trueman Jagger** who was Supreme Champion Carlisle October 2015 and later sold for £147,000. Earlier in the year he had achieved first, Male Champion, Reserve Breed Champion and Interbreed Junior Champion at the Royal Ulster Show – this was the only time he had been shown. **Trueman Grazia** was purchased privately in 2015 from Holland, not only on the strength of her progeny, but also for the fact that she oozes style and class. She has the most wonderful temperament and milking ability. She is sired by **Haltcliffe Vermont**, who was Champion at Carlisle and realised 100,000gns. This is a fantastic opportunity to breed your own Record Breaker.

**Trueman Jagger 140,000gns**
